

# IARD 2026

15<sup>th</sup> Biennial Meeting  
International Association for  
Relativistic Dynamics

Howard University in Washington, DC

8 - 11 June 2026

Bringing together researchers from diverse fields whose interests and applications involve classical and quantum relativistic dynamics. The program aims to present recent developments in quantum field theory, conformal and string field theories, general relativity, covariant approaches to classical and quantum theory, and explore applications in high energy physics, cosmology, gravitational waves, and relativistic quantum information.
